Order Principles

# Hierarchy Principles

| | |
|---|---|
| Series: | **Education In Love** |
| Group: | **Understanding God's Loving Laws** |
| Theme: | **Hierarchy Principles** |
| Presenter(s): | **Jesus** |
| Description: | **Jesus briefly summarizes God's Principles of Hierarchy that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles** |

| **Hierarchy Principles** | |
|---|---|
| **Terms** | ***Creation*** includes any matter or creature from the smallest particle to the most complex living creation of the human soul<br>***Components*** are creations of less complexity combined in new ways<br>Any lower *creation* is a potential *component* for a higher *creation*<br>***Energy*** includes information, energy, emotion, thought, communication, relationship or interplay within or between *creation*<br>***Properties*** include all properties, characteristics, attributes, attractions, and restrictions of the *creation* itself<br><br>Each creation's complexity is determined by the complexity of its individual components, energy and properties<br>Each creation of higher complexity has higher energy capabilities<br>If a creation has higher complexity and energy capabilities, it is also considered to be higher in hierarchy<br><br>***Inbuilt Rules*** means a set of laws and potentials built into the *creation* itself that govern the *creation's properties*<br>***External Rules*** means a set of laws and potentials created by *creation* combinations external to the individual *creation* itself<br>***Rule set*** is the combination and interaction of *inbuilt* and *external rules*<br>***Law*** is an individual set of laws or an individual *rule set*<br>Each more complex *creation* has more complex *inbuilt rules*<br>More complex *inbuilt rules* interact with more complex *external rules* and therefore create more complex laws |
| **Context**<br>(Help to understand) | ***Scope*** determines the existence of the Universe, everything within the Universe, how everything communicates with all elements of the Universe, and also the inbuilt soul based mechanisms via which the highest creation within the Universe is able to communicate with God<br>***Hierarchy*** determines the position or place of each *creation* and law within the Universe, and the power and energy each creation or law has over other creations and laws lower in the hierarchy. |
| **Summary** | **Hierarchy principles:**<br>Determine the hierarchy of law by the complexity of each law<br>Determine the hierarchy of creation by the complexity of each creation<br>Ensure more complex creation is governed by more complex laws<br>Ensure higher creations and laws exert more power, have more energy, and more complex properties |

| Hierarchy Principles (cont'd) | |
|---|---|
| **Definition**<br>(What the principles are) | The Hierarchy of *creation* shall be determined by each *creation's* complexity<br>The Hierarchy of law shall be determined by the complexity of each *law*<br>Each more complex *creation* in the hierarchy of *creations* shall be governed by a hierarchy of more complex *laws*<br>To ensure that *creations* and *laws* that are higher in hierarchy exert more *power* and have more complex *properties* |
| **Objectives**<br>(Why the principles are applied to law) | To ensure each creation is governed by law<br>To ensure all matter can be broken down into its individual components<br>To prevent the complete destruction of any form of matter<br>To allow for the creation of more complex law<br>To allow for the creation and survival of more complex creations<br>To allow creations of higher complexity to contain more complex inbuilt rules<br>To allow for each more complex individual law to more powerfully affect creations of higher complexity<br>To allow for each more complex individual creation to have a more powerful energy flow and effect on creations of lower complexity<br>To allow for each more complex individual law to have a more powerful effect on laws of lower complexity<br>To create implied, instinctual or automatic governance, responsibility and compensatory systems which are not based upon will or desire but rather upon hierarchy |
| **Application**<br>(The creation and laws affected) | Every law<br>All matter living and non-living |
| **Reveals**<br>(What the principles reveal about God) | God desires His creations to have the ability to create<br>God is generous and sharing in His Nature<br>God desires that each creation lives in relationship with other creations<br>God feels that relationships are important and bring satisfaction of desires<br>God creates instinct in all creatures for common functions<br>God creates properties in all matter for common functions<br>God feels that common purpose brings more powerful beneficial results<br>God feels each creation component has value and is necessary and essential for the operation of the whole |
| **Examples**<br>(The principles' applications in law) | **Gravity**<br>Gravity is actually a combination of creations (matter) and laws (rule sets) creating a new law we call gravity. The greater the mass the greater gravitational force is exerted on other matter. This creates a law that maintains automatic safety for sustained life and development.<br>**Aerodynamics**<br>Aerodynamics is actually a combination of creations (matter) and laws (rule sets) creating a new law we call aerodynamics. It involves many lower laws from a wide range of fields including physics of motion, material properties, fluid dynamics, pressures and temperatures and so forth.<br>**Human bodies**<br>Hydrogen and oxygen, water, blood, cardiovascular systems, energy systems, human body discussion and example of creations of law and new law interactions with the environment and the injection of the life principle.<br>**Human soul**<br>Connection with physical body (most complex physical creation). Connection with spirit body (most complex spirit based creation). The human soul energy systems and receiving substances from God. |

| Hierarchy Principles (cont'd) | |
|---|---|
| **Conclusion** | **Hierarchy principles:**<br>Hierarchy determines the position or place of each creation and law within the Universe and creates implied, instinctual or automatic governance, responsibility and compensatory systems.<br>Hierarchy extends the Scope principles by placing Scope within a Hierarchical system. Scope allows for Hierarchy to exist.<br>**Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose hierarchy principles including:**<br>Feeling and believing I individually and humans collectively do not have control over our own creations (e.g. sin, disease, sickness, accidents etc)<br>Feeling and believing I can circumvent or am more powerful than the laws that govern me, etc |

## *Hierarchy Principles Q&A*

### *Use the morning as an opportunity to formulate my questions*

Examine the "Hierarchy Principles" outline
Think & feel about what I would like to ask

### *I want my questions to be to the point, succinct and direct*

Stop telling stories, raise the issues directly
Stop parroting what I think, rather than asking Jesus what I want to know
Use the microphone properly

## *Questions About*

### *Hierarchy Principles*

What the principles are
Why the principles are applied to law
The creation and laws affected by the principles
What the principles reveal about God
Examples of the principles' applications in law

## *Questions Answered*

***00:39:06 Natalie Mann***
Does the spirit world exist in the physical universe?

***00:40:00 Natalie Mann***
Does the soul control the physical and spirit bodies?

***00:48:12 David Raizman***
As I develop and transform with God's Laws do I have a greater impact on untransformed souls?

***00:54:48 Loise White***
Why does God not want the human soul to become as powerful and wise as God is?

***00:57:00 David Ryan***
Is creation divided into groups or is it a long list where one creation is above and below another until the human soul is at the top?

***00:58:01 David Ryan***
How is creation grouped together?

***00:58:52 David Ryan***
Is there an infinite amount of hierarchy in the system?

***01:01:50 Anna Skevik***
What is the difference between a rule set and a law?

***01:02:53 Anna Skevik***
Is there a synonym for the word "Scope"?

***01:03:51 Anna Neynens***
How do Hierarchy Principles reveal that God feels relationships are important and bring satisfaction of desires?

***01:09:23 Anna Neynens***
How do Hierarchy Principles reveal that God feels common purpose brings more powerful beneficial results?

***01:11:31 Jane Stein***
What are the results of the human soul abdicating its role in the hierarchy of creation and having the false belief that other creations are higher?

## *30 Minute Break (Lunch)*
