

Divine Truth Document

Jesus' Life Story & Diary

1st Century Person	Jesus of the Bible (Yeshua ben Yosef)
Modern Person	Alan John Miller (AJ)
Location Written	Victor Harbor, South Australia, Australia
Date/Time	11th February 2006
Title	An Introduction To My Life

An Introduction to My Life

My dear brothers and sisters

I wanted to let all of you know that I am very well, and that I have been thinking about a wide variety of subjects over the past few months, most of which revolve around the progression of the 14 persons who have reincarnated, and those others of you who have shown faith and are progressing as a result of that faith.

Transition of the 14

As I have previously explained to you, both collectively and to some individuals in more detail, the 14 who have returned to earth are progressing through transitions that are required for us to be able to begin the work ahead. This process of progression is similar in nature to the progression that all persons can make here on the earth, where their souls can move through the same stages of progression as they would if they were living as a spirit. Of course, there are also major differences, but I will discuss some of these at a later time, since knowing this information really only benefits the 14 themselves.

As a spirit progresses, usually at the time of their living in the seventh sphere of the Spiritual Heavens, they have a time of reflection about their life up till that point. You will note this is the case if you have read the writings of Judas as presented through Hans Radax. During this period of reflection, often a spirit will reflect upon their complete life up until that point, the lessons learned, and also their primary fields of interest and other matters pertaining to their own spiritual development.

Obviously it is a time of joy as well as a time of contemplation. Although I have not completed the process of transition and still have outstanding emotions to work upon, this time for me is such a time of contemplation and reflection. I expect that the final emotions and feelings in disharmony with my Father will disappear shortly due to the operation of His Love and my own desire to work through them. Like all persons in this progression, I do not know what I have yet to deal with, and so I cannot accurately estimate how long this process will take me.

After that time I will be waiting for my Father to complete the process of transition so that I will be ready for the time of my public ministry, which I believe will begin this year. I have been informed that not all of the 14 will be complete their transitions before the public ministry

Jesus' Life Story & Diary

begins. This experience is similar to that which I experienced in the first century, since I was ready to begin my public ministry then for a period of time before it began, and I was waiting on my Father to tell me when the right time would occur.

Events In My Life

I have been reflecting upon the many events in my life that I can currently remember, and those events can be broken into my emotions and feelings about events that occurred in my life in the 1st century, my experiences in the Spirit world and Soul worlds, and my current modern day earthly experience.

Of course, I am yet to remember all of the events of these times, since my own soul cannot yet connect completely with my physical brain to transmit all of these memories due to further changes that must happen to me physically of which I have been informed of from my spirit brothers and sisters who are giving me guidance. But, I do have many emotional impressions from the 2000 years or so of my existence, and memories of events and people during that time.

Since I have been remembering many of these events and feelings, and processing these events and feelings will assist me to work ever closer to complete my transition, I thought it would be helpful for me to write down these things. Also, since I am never prone to do something for my own benefit only, I thought that I would send these messages about what I have written to those of you who wish to read about them, since it may give you some more insight and assist you to work through different emotions of your own, and also help to you view me more as your brother and friend, rather than having an opinion of me that places me above yourself. I am your brother, and the Beauty and Treasure of coming ever closer to our Father that I have experienced is also yours to experience, for in our Father's Eyes all of His sons and daughters have the same value to Him.

During these messages, I will refer to some messages written to mediums such as Mr Padgett, Dr Samuels and others. Some of these messages contain the thoughts of the mediums but always with a grain to truth within them, and I will where I can expand upon those messages that refer to my life, or where I was personally involved in the transmission.

First Century Life

I would like to tell you about my feelings and expand upon some events that firstly occurred in my life in the first century; what it was like growing up talking to my Father, my feelings of life then, my relationship to my brothers and sisters and parents and friends, my feelings as a teenager and young adult.

I would like to talk about how I dealt with rejection from my family and the derision of others, disagreements with my Father, my times alone. Also the occasional times of sadness, and the effect my Father's Love had upon me during those times before I was at-one with Him. I want to also mention some aspects of my ministry that have not been discussed, when I met my soul mate, my relationship with her, her pregnancy, and response of my disciples about some matters and issues, and some details about my last day of life on earth then.

I would also like to talk about some of my feelings and emotions after I passed over to spirit, assisting my disciples to have faith, the time of Pentecost, my work in assisting spirits to progress and my own progress. Although I cannot remember at this time dates and times, I was

Jesus' Life Story & Diary

present at the time of death of most of my close friends, and also my soul mate and my daughter.

I would like also to make some comments about my feelings about the modifications of the teachings of truth, and the work we involved ourselves (myself and my Celestial brothers and sisters) in attempting to enlighten the earth because of our firm conviction that if we could correct the untruth many millions of souls would benefit.

I want to make some comments about the Reformation, Swedenberg, Spiritualism, Mr Padgett and his messages, Dr Stone and his faith, Mr Morgan and his work with spirits and Dr Samuels and his messages.

Also I would like to mention some of my own personal realizations, the feelings about the transition into soul with my soul mate, and certain feelings and emotions regarding living in soul only, and reincarnation.

I am going to mention many things about life as a sinful man in modern times, from the time of my reincarnation onwards. My birth, my parents and family, feelings I felt as a young child growing up. I want to talk about the internal confusion resulting from reincarnation, and the experience of conscious incarnation (as compared to the incarnation of a soul not already individualized).

I will mention my religion, schooling, my teenage years, marriage and children, my experiences as a minister of religion, and the hardships and troubles faced during those times. I want to talk about when I first met my soul mate again, the breakdown of my marriage, my lack of self-worth and loss of faith. Also the results of being excommunicated from a religion, rejection and abandonment, growth towards the perfect natural man, rejection from my soul mate and loss, triggers for my seeking truth, revelations and acceptance of personal identity, soul progression experienced as a sinful man, and the overwhelming joy of again experiencing my Father's Love and the feelings I now have realizing that the purpose for which I came as messenger of the Truth about the redemption of man, will be finally accomplished.

Many of you reading these things may feel a variety of emotions about what I write. I know that many of those who read this information already doubt that Jesus has returned to earth, and even more so, doubt that the person they have heard of as Alan John Miller could be Jesus. If so, then I suggest that you defer your reading of this material if you believe it will affect your faith in the messages of Divine Love as contained in the Padgett messages and other writings.

Since I cannot back up much of this information with corroborative evidence, some of you may have difficulty accepting it. Others may feel that my feelings and emotions are imagined rather than real. You are entitled to your opinions and disbelief, and I am not hurt if you cannot accept the things I will write. You always have the option of asking your spirit guides and your Father for their confirmation to assist you.

Of course, in the past, I have refrained from commenting about my personal life very much, and although now some material exists regarding my personal life in the first century, there is little information that has come directly from myself. My reason for this has been that there is far too much emphasis placed upon my person, not only by 'orthodox' Christians, but also by others including those who have come to experience Divine Love, and I felt providing more information may just exacerbate the problem of my being glorified in a totally unnecessary and often times blasphemous manner.

Jesus' Life Story & Diary

Since now I am on earth, in the flesh, in time it will be much easier for others to see me as they see themselves, and I have the opportunity of negating much of the previously untruthful history and misconceptions of myself and my life, and I also have the opportunity of placing the focus back to where it began, and where it always should have been, on each person obtaining a personal relationship with their Heavenly Father by being Born Again into His Love.

So I am hopeful that others will see me as I am, just one half of one complete soul wanting and having a burning desire to be ever closer to my Father, and to come to know the person my God truly is. This always has been my own first burning passion. The second is that I can prove true to my own selection and be his messenger of Divine Truth assisting all individuals to come to experience the complete joy and happiness that results from truly coming to understand their own Father, and beginning on the journey, the everlasting journey of getting to know Him.

As you can see, there is much for me to talk about. I do not know how long it will take me to write this information, since I am still working on my own progression as my highest priority. I also at this point realize that later I may need to correct some things I state now, because of course I am not in the condition where everything I say is accurate completely, so please do not be offended or upset if something I say is corrected later. I am still, and always will be, a work in progress, and the transition between the material mind, and the mind of the soul is only almost complete.

Anyway, I hope you enjoy these messages, and please take them in the spirit they have been provided. I love very dearly all of those with whom I have met and corresponded with, and I wish to be able to get to know you, and for you to be able to get to know who I am. I am also very hopeful that you also will consider sharing with others your personal experiences.

Your brother and friend
Jesus, whom some of you know as AJ
