

## *Human Relationships*

### *Sex & Sexuality Session 1 of 2*

#### ***Introduction***

Not a comprehensive “Divine Love” focused discussion of the subject

Desire is to illuminate important points regarding God’s Laws that affect sex and sexuality

Part 1 looks at God’s viewpoints, Part 2 looks at dealing with and healing sexual emotional injuries

#### ***A few comments about your emotions regarding this subject:***

Please do not judge yourself, if feel shame, then allow yourself to feel those emotions

Negative feelings from this discussion will be due to the Law of Compensation, allow yourself to feel

Please do not get angry with yourself or myself, since that would be a denial of deeper emotions

Your reaction to this information will differ depending on whether on the Divine Love path or not

On the natural love path, you will concentrate on changing your own thoughts and actions

On the Divine Love path, you will concentrate on changing your soul condition

#### ***Reminders about the soul***

The soul has a huge number of attributes and qualities, some of which are: Passion, Desire, Emotion,

Feelings, Aspirations, Intentions, Free Will, Memory, Personality, Instinct, Natural Love, Energy

When the soul is incarnated, it is; pristine, without injuries, unaware of itself, unaware of free will

When you deny your own emotions, the emotions are intensely transmitted to your environment

#### ***Sexuality From God’s Perspective***

##### ***Reminders about the soul-mate connection at incarnation***

At incarnation we are not conscious of the soul separation (physical separation of the two halves)

At incarnation we still have a connection with our soul mate (through the law of attraction)

At incarnation we are not consciously aware of our connection with our soul mate

Conscious connection with soul mate depends on environmental factors (esp. emotions of the parents)

Impossible to reincarnate into an opposite gender form (eg. female in previous life into male now)

##### ***Reminders about the soul-mate connection at Soul-Union***

The Soul-Union state is where the soul halves connect with each other in a fully individualized state

The Soul-Union state is only available to soul-mates

The Soul-Union state is a state of constant sexual expression

##### ***What Is Basic Sexuality?***

Sexuality is really Soul-ality (attraction at the soul level of the ½ of the soul for its soul mate)

Since the soul is dual in nature (i.e. only splits into two), there are only 2 pure forms of soul-connections:

Heterosexual – Male with female

Homosexual – Male with male, or female with female (lesbianism) homosexuality

Bisexuality is not a possible soul connection (since it would involve more than two halves)

All forms of soul connections sexually can be also distorted injury connections

Eg. Many homosexuals at the soul level feel forced into heterosexual relationships due to injuries

Eg. Many heterosexuals at the soul level feel forced into homosexual relationships due to injuries

Eg. Bisexuality is the attempt to come to terms with sexual attractions to both sexes due to injuries

Unimpeded soul connection with the spiritual & physical bodies is essential for sexual organ development

Severe prior generation trans-generational emotional injuries regarding sexuality/self identity

affect; the new soul’s connection to the body, the production of hormones, Chromosomal

abnormalities in genetic structure, & spirit connections (attracted by parents emotional condition)

##### ***God’s Perspective Of Sexuality***

Sexuality is a core soul attribute in every soul (no single soul or soul half is without sexuality)

Sexuality must be developed (harmonious with love) in order to have a loving connection with self

Sexuality must be developed (harmonious with love) for a loving connection with ones soul mate

Sexuality must be developed (harmonious with Divine Love) in order to have a pure connection with God

Sexuality must be developed (harmonious with Divine Love) in order to reach the Soul-Union state

Sexuality & Sex are beautiful gifts from God and form a deep part of our most blissful states

Avoidance of Sex & Sexuality causes major denials within the soul, and **prevents** spiritual development

## ***The Importance Of Sexual Identity***

### ***Sexual identity is determined by the soul***

Each soul half has a unique sexual signature, which could be called their sexual identity  
 When each soul half perfects their sexual identity, their soul mate will be their only sexual stimulant  
 The soul mate is the perfect sexual compliment (especially when each soul half has healed sexually)  
 Sexual identity will not be refined completely until we reach the soul-union condition (22nd sphere)  
 Sexual identity can be healed (and must be healed) to be at-one with God

### ***Injuries with sexual identity causes our Law of Attraction to attract:***

Sexual abuse, sexual control, sexual powerlessness, sex without love, sexual abuse to our children  
 Sexually frustrated spirits working through us to set up unloving sexual interactions with others  
 Limited or no sexual response (lack of orgasm in women, impotence in men)  
 Contraction of sexually transmitted diseases (caused by and triggering sexual shame emotions)  
 Sexual addictions (promiscuity, nymphomania, one-night stands, exhibitionism, masturbation)  
 Unloving sexual practices to obtain arousal (male/female dominance, 3-somes, sexual orgies)  
 Sexually deviant behavior (rape, child abuse, incest, violence, predatory sex)  
 Sexual enslavement (prostitution, sex without love, sex for physical release, sex for gain of position, sex for security, sex for control, sex to feel good about self)  
 Sexual denial of self (shame of sexual organs, shame of sexual response)

### ***When we are healed in our own sexual identity***

No person can abuse us or control us sexually (we cannot attract persons who do this into our lives)  
 No person (on earth or in the spirit world) can have power over us sexually  
 We cannot abuse, have power over or control others sexually (these emotions do not exist within us)  
 We cannot be sexually attracted to any other person other than our soul mate  
 We cannot orgasm or obtain arousal with any other person besides our soul mate  
 If truth is denied in the relationship (by either party) sexual connection stops immediately  
 If love is denied in the relationship (by either party) sexual connection stops immediately  
 Spirits cannot influence our sexual response (this often happens in promiscuous “tantric sex”)  
 We are comfortable with our own sexual power

## ***Sex From God’s Perspective***

God loves sex and sexual expression and the creation of our own soul is the result of God’s sexual expression  
 The pro-creation of all living things in the entire universe is dependent mostly on sexual expression  
 God created sex for the purpose of co-creation between soul mates  
 Sex is not just for the purpose of pro-creation (evidence of both the man’s and women’s body)  
 One of the primary purposes of both our physical & spiritual bodies design is for sexual function and expression  
 God created sex for the purpose of enjoyment and bliss for soul mates forever  
 Sex is a creative process physically, emotionally, and spiritually for soul mates  
 Permanent sexual intimacy for soul mates is one of the ultimate goals for the soul on the Divine path  
 Sex must always be a loving expression to both parties involved in the emotional transaction

## ***Sex, Physical & Sexual Attraction***

### ***The role of sex in a relationship***

Sex is an important way of developing love, affection, playfulness, passion and desire in the relationship  
 Sex is a way to work through injuries of sexuality in loving relationships as long as we are self-aware  
 Sex is a way to confront emotional issues of vulnerability, masculinity, and femininity  
 Sex without love or promiscuous sex results in more sexual harm to others and ourselves  
 Entering a sexual relationship creates a “third” entity, the combination of both soul halves sexual joining  
 You do not need to have a relationship to work through sexual soul based injuries

### ***Physical & sexual attraction***

Most sexual attraction currently on earth is due to soul-resonance of injury emotions (e.g. chakra opening)  
 Sexual attractions to persons other than soul mate are soul-injury attractions

### ***Soul based physical & sexual attraction***

Soul sexual attractions with your soul mate are very dependant on issues such as:

Truth, ability to love, ability to accept love, the release of security & safety fears, the release of control, manipulation, domination style injuries, vulnerability, masculinity, femininity, shame, guilt, etc.
