

Mediumship & Healing

Session 1: Introduction, Truths & Soul Condition

Pre-Requisites

- Watch the DVD session “Spirit Relationships – Laws of Rapport & Spirit Communication”
- Go over the notes for the session “Spirit Relationships – Laws of Rapport & Spirit Communication”
- Have a passion & longing for either the gift of healing, or the gift of mediumship (spirit communication)

Introduction

- Prayer to God – A passionate longing directed towards God to receive Divine Love & Truth
- Our Aim – To channel God’s Truth and healing in harmony with God’s Love

Potential Dangers

- Eg. Friend of AJ’s who felt she was channeling John (The Apostle)
- Not wanting to face the errors in your own emotional “truth”
- Not wanting to face, acknowledge or feel own emotions/beliefs and so-called “truths” that are in error
- The law of attraction with spirits (including negative) will depend totally on your own soul condition
- You will be very tempted to blame any “negative” spirit events on AJ
- The law of attraction with your own guides will depend on your own longings for “truth”
- You will be VERY tempted to NOT do your own emotional work

Homework Will Follow This Process

- Pre-development exercise – An exercise that is noted before you undertake the development
- Development – The homework for each day over the month
- Post-development exercise – An exercise that is noted after you undertake the development for the month
- Debriefing – At the next session, AJ will debrief and compare accuracy, and soul condition restrictions
- Sharing – Sharing your development with others

Future Investigations From Spirit

- The Law of Rapport, The Law of Compensation, The Law of Desire, The Law of Attraction, What is Natural Love, Physical Body Healing, Spirit Body Healing, Soul Healing, Money, Ethics, The Spheres of the Spirit World, The Spheres of Celestial World, The Soul Union Condition, Reincarnation, etc.

Hierarchy of Truth

Key Point

- What you feel about and think about all the time will greatly affect the kind of help (with healing) and type of messages (with mediumship) that you are going to receive from the spirit world.

Key Point Notes

- As a medium or healer, focus on the Divine Truth, and Divine Love then will receive these truths
- If feelings focused on Natural Love or New Age, then will receive information regarding these things
- If feelings focused on the material or scientific information, then will receive information about this
- If feelings focused on mundane day-to-day problems, then attract spirits who feel they know about this
- The lowest truths are the physical, the highest truths are of Divine Love & Divine Truth, and of the soul

Homework

Pre-development:

- Mediums:** Write a ½ page summary message from what you feel is your own spirit guide about the Law of Attraction
- Healers:** Write a ½ page summary of what you feel the condition is of the spirits surrounding you during a healing session, and what they are attracted to in yourself and your client. Note the effectiveness of the healing session (from your own feelings or intuition)

Development:

- Spend time each day longing from the heart for Divine Love (Praying to God from your heart)
- Focus your energy and time on thinking about, reading about, and feeling about Divine Truth
- Do at least two weeks of this for one hour per day each day
- Wait until you are in a refreshed and clear state, THEN do the post-development exercise

Post-development:

Mediums: Write another ½ page summary message from who you now feel is your own spirit guide about the Law of Attraction

Healers: Write another ½ page summary of what you feel the condition is of the spirits surrounding you during a healing session, and what they are attracted to in yourself and your client. Note the effectiveness of the healing session (from your own feelings or intuition)

Soul Condition**Key Point**

Your soul condition determines all accuracy of mediumship & effectiveness of healing

Key Point Notes

The soul condition is the controlling force governing the accuracy and effectiveness of all gifts

The soul's primary attribute determining condition is Love (either Natural or Divine Love)

The soul's moral condition also has important effects on mediumship & healing

The soul's condition determines through the Law of Attraction the spirits that surround you to help you

It is the soul's attributes, qualities, desires, passions, condition spiritually and emotionally, & the (spirit body) mind's repository of information, that determine the effectiveness of your gifts (either mediumship or healing)

Homework**Pre-development:**

Mediums: Write a ½ page summary message from what you feel is your own spirit guide about what they feel is "Mary Luck's" soul condition

Healers: Write a ½ page summary of what you feel the condition is of the spirits surrounding Mary Luck and why this attraction exists.

Development:

Do the following exercise in addition to the development above

Find a situation through the Law of Attraction that makes you annoyed, angry or frustrated

Delve into the emotions of the anger, and then deeper, and access the causal emotion that you feel is the reason for your anger about the situation (this may take quite a few weeks)

Wait until you are in a refreshed and clear state, THEN do the post-development exercise

Post-development:

Mediums: Write another ½ page summary message from what you now feel is your own spirit guide about what they feel is "Mary Luck's" soul condition

Healers: Write a ½ page summary of what you now feel the condition is of the spirits surrounding Mary Luck and why this attraction exists.
