

## ***Overview Of Divine Truth Future Vision***

### ***Introduction***

#### ***Purpose of this discussion***

Many are asking what the “future” holds on earth  
Many are thinking about how they will “fit in” to the future events on earth  
Many have misconceptions about what Jesus wants/needs & judge this erroneously  
Today’s discussion will address some of these questions

### ***Not devoting life to a “Guru”***

#### ***Your Past Spiritual Path***

Many people who are connect to the Divine Love path have in the past listened to or followed a “Guru”  
This is an avoidance of actually connecting with God at the soul level

#### ***What AJ is, and is not***

AJ just happens to be Jesus, but there is nothing special about that  
Jesus is just a normal man showing you how to connect to God  
Jesus is reincarnated, only the one time, and the first visit to earth was in the 1st century  
Jesus is not an Avatar or Guru, and is not God

#### ***What Jesus would like***

He does not want to be worshipped  
He does not need you to follow him around the countryside  
He doesn’t want to listen to your personal stories & emotional processes in order to get his approval  
He would like to see you listen to, apply, & follow the teachings he is teaching you to get close to God  
He would like you to develop your relationship with God, not with Jesus himself  
He would like you to discover & then follow your own passions & desires  
He wants you to truly do what you desire, rather than listen to what he desires

### ***Trusting in God***

#### ***When you only trust Jesus, you are not on the Divine Path***

To be on the Divine Path, you must firstly Trust God (become God Reliant)  
Then you need to learn to trust yourself & your own emotional experience  
Then you would allow yourself to trust another person if that person was trustworthy  
Many trust Jesus, but do not trust themselves or God, which is not what Jesus is teaching

#### ***Emotional errors dealing with Jesus***

Many ask Jesus for help & assistance when they need to be asking God for help & assistance  
Many want Jesus to listen to them, but forget completely to talk to God & ask for God to listen to them  
Many want Jesus to feel their emotions for them, which he cannot ever do  
Many want Jesus to tell them what their problems are, rather than discovering problems themselves  
Many are looking for Jesus approval without understanding they already have it  
Many who look for Jesus approval are avoiding deep emotions within themselves  
Many who look for Jesus approval will find themselves deeply disappointed with Jesus at some time  
Many get angry with Jesus when he does not do what they expect him to do for them

#### ***Learning To Trust God & Yourself***

When you trust God completely, without reservation, God can show you who else to Trust  
To Trust God, you must firstly begin to trust your own soul, passions, desires, emotions etc.  
Trusting God, & then yourself, you are able to fully connect to everyone around you  
When you can fully connect to everyone around yourself, you then know whom else you can trust  
When you trust God & yourself:  
You take complete emotional responsibility for your entire life  
You do not expect anything from any other person, including Jesus  
You fully appreciate all of the gifts you get from God

***Truth & Addictions******Jesus' viewpoint of Truth***

The truth will set you free

He respects the Divine Truth so much that he knows it cannot be improved upon or embellished

He respects your soul so much that he never skimps on truth, or tries to make it more appetizing

He recognizes you as an equal under God who can learn & grow in God's Truth

When he points out unloving behaviour he does this because you have an equal capacity for love

You have the capacity to love Jesus as much as he has the ability to love you

***Many are still avoiding Truth in their personal lives***

Many still compromise truth in their thoughts, words and actions on a daily basis

This is because they are living in their own emotional addictions

When we live in an addiction we are willing to compromise truth in order to not feel, or get feelings

E.g. The alcoholic lives in their addiction for drunkenness to avoid feeling deep emotional hurts

E.g. The "helper" helps others in order to avoid feeling unimportant & insignificant

Very often your addictions are forming the entire basis for a relationship

You do this because you are still willing to compromise truth in order to "feel good"

***We are the most loving when we are ALWAYS in emotional truth***

If we compromise personal truth, then we still have many fears we need to work through

If we compromise Divine Truth, then Divine Truth is yet to be truly valued in our life

E.g. Illustration of the treasure in the back yard

***The effect of our soul growth******Jesus' viewpoint of Soul Growth***

Soul growth is the most important, everlastingly beneficial thing you can ever do with your life

Soul growth takes priority over ALL other things, without it, true relationships do not exist

Soul growth is essential to realizing your own dreams, desires, passions & joys & being fulfilled

Jesus respects your choice to avoid your own soul growth, but feels that such a choice is harmful

***The effect of holding onto past hurts and pains***

When you hold onto these hurts, you automatically project all of these into your environment

This means that you automatically create emotional pain in others (unless they are at-one with God)

***We often use our own pain as a way to justify our causing pain to others***

When we are denying personal responsibility for our pain, we justify causing pain to others

E.g. When we are angry, we are in denial of our personal pain & blaming something else for it

E.g. When we are needy, we are in denial of our personal pain, & wanting another to make us "better"

E.g. When we are depressed, we are avoiding our emotions, & adding burdens to others around us

***Focusing on your own desires******Jesus' viewpoint of your Desires & Passions***

Jesus feels that our own desires and passions are paramount to our soul progression

Jesus feels the highest desire & passion is a desire & passion for God & Her Love, & Her Truth

Jesus feels we also need to develop every desire & passion harmonious with Love

Jesus wants you to stop asking him what you desire, or what you "should" do

Jesus does not want you to ask for his "approval" or "agreement" for your passions or desires

This is an attempt to avoid personal responsibility for our passions & desires

E.g. If you ask Jesus whether he agrees, then you are involving him in your decision for a reason

If our own passions & desires are not harmonious with Love, the Law of Compensation will correct

***Loving world vision***

2/3rds of the world lives in poverty & in terrible external condition which inhibits soul growth

We in the "developed" nations believe we are separate, not responsible, and this is totally untrue

Most of the world lives in fear, including most people in the "developed" nations

***Jesus' desire for the world***

That every person on earth has access to the Divine Truth from conception onwards

That every person on earth is given (i.e. they do not need to PAY for it):

- Clean drinking water, & clean washing water
- A beautiful abundance and choice of food that is harmonious with Love
- An abundance of clothing that is harmonious with Love
- A place of shelter that is harmonious with the environment
- A peaceful & secure environment of their OWN choosing (harmonious with Love)
- That each person on earth who is able to work is given the tools to create these things for themselves

### ***Environment***

- USA, Canada, Japan, Europe, Australia are the leading nations destroying the environment
- 1/3<sup>rd</sup> of the world's population is using ¾ of the world's food, and 83% of the world's resources

#### ***Jesus' desire for the environment***

- That all persons deal with their emotional injuries that cause them to treat the earth without respect
- That all persons choose a simple lifestyle that reflects God's Love for the earth & its gifts
- That all persons choose a vegetarian diet
- That all persons only use resources that are sustainable
- That any person has the complete freedom to live in any environment as long as they act in love toward it
- That any person has the complete freedom to live in any country as long as they act in love toward it
- That each person takes personal responsibility for their own environment (cleanliness, maintenance of)

### ***Economy***

- The majority of the economic problems are caused by the emotion of greed & fear of lack
- The economy is the creation of powerful men & women who lust for more power
- These people on earth are guided by spirits in the spirit world who have a lust for power
- Taxation is a method of control & manipulation of the poor in order to make the rich richer

#### ***Jesus' desire for the Economy***

- That each person works through emotions of greed, power, lust & fear of lack
- That we enter a GIFT economy (not a BARTER economy)
- That taxation ceases, but everyone does work they desire

### ***Religion***

- The majority of religions have a judgemental & arrogant attitude towards others who are not of the same faith
- There is very little acceptance of the individual's feelings & emotions, & that connection with God is personal
- Religions are infiltrated with people in power who control & manipulate the masses by fear, dogma, & rules
- No religions on earth understand the Divine Truth, & few religions on earth practice love completely

#### ***Jesus' desire for Religion***

- That each person in any religion can practice the Divine Truth & remain connected with their religion
- That religion on earth modifies their beliefs to incorporate Divine Truth & the reception of Divine Love
- That each religion makes the health, happiness & love of each individual on earth paramount

### ***Politics***

- People & spirits in a lower condition of love are making decisions that affect all humanity
- The current political model in every country is about power, money, & control
- Violence & war are advocated for the sake of "national security"

#### ***Jesus desire for politics***

- God's viewpoint is that war & violence is NEVER justified under any conditions
- That we entrust responsibility to those people who understand how & why we need to do things
- That we never make decisions based upon economy, but rather upon "what is loving"
- That people in the higher state of love are chosen to assist humanity to govern itself lovingly
- E.g. Health is entrusted to people who understand the soul, & how emotions affect health
- E.g. Engineering entrusted to people who can design & build what we need harmonious with environment

### ***Health***

- The current health system is really only dealing with effects rather than causes (Law of Cause & Effect)
- The current health system is very focused on making money, & being financially viable
- The current health system rarely honours free will
- Governments do not wish to address the causes of ill health

***Jesus' desire for the Health System***

- That everyone understands the need to address the true Causes (emotional soul condition) of ill health
- That people understand excellent health is fully achievable
- That people take personal responsibility for their own creation of ill health
- That spirits take responsibility for the creation of ill health in persons they are connecting to
- That health practitioners are focused on the soul, spirit body and physical body health conditions
- That money & viability is no longer considered at all as a determining factor of health or treatment

***Education***

- The current education system is purely materially focused (material world) & very competitive
- It is based almost totally on making people conform to the environment in which they live (current beliefs etc)
- It does not encourage questioning & individuality

***Jesus' desire for Education***

- Similar to the methods of education in the spirit world & described by Anastasia in "Ringing Cedars"
- There is no competition, no force on children, full respect for children's free will

***Science***

- Most scientific endeavours are very materially oriented with without spirit interaction
- Most scientific experimentation is very constrained by the current intellectual beliefs of scientists
- Most scientific "forward" movement is originally for the purpose of warfare

***Jesus' desire for Science***

- That more experimentation is done to analyse the connection between the dimensional existences
- That science is not used for the advancement of individuals or companies financially
- That all scientific "discoveries" are provided free-of-charge to the entire human race
- That science is focused on what is loving towards humans, the environment & the earth

***Spirit interactions & communication***

- Most spirit interaction occurring today is steeped in superstition & falsehood
- Spirits in poor condition have a large effect on the earth in almost every area of life
  - Poor health is often caused by spirit attachment (disease & things like alcoholism, smoking, drugs)
  - Religious & political violence is often encouraged by spirits in evil emotional soul condition
  - Mental health is severely affected by spirits in various conditions surrounding the individual
  - Inter-gender anger & violence is often increased by spirits in evil emotional soul condition
  - Most "Guru's & Avatars" are heavily over cloaked by spirits on different occasions

***Jesus' desire for spirit interactions & communication***

- That mediums on earth focus on helping spirits in poor condition move through their emotional injuries
- The people on earth are educated about the Divine Truth as respects the spiritual dimensions of existence
- That scientific evidence & proof is given to the earth about spirit life & existence
- That people on earth are educated about how to disconnect themselves from spirit influence
- That eventually spirits can materialize on earth in a conscious way without being misunderstood
- That the earth and the spirit world are eventually all treated as one continuous existence
- That death is no longer feared
- That spirits in better condition stop influencing people on earth with their own brand of "truth"
- That spirits in better condition understand Divine Truth before they attempt to influence people on earth

***Conclusion***

- There is much more to say about all of these subjects, this discussion is just an overview of the Future Vision
- Jesus encourages all to contemplate their own desires & passions, & choose their role in changing the world
